OverDrive offers library patrons access to thousands of eBooks and audiobooks. Offering access to books from home or work is more convenient for patrons and helps avoid late fees.

eBooks are digital versions of a book that have been optimized to read on a screen. You can download them and read it on a computer, phone, tablet or eReader.

Audiobooks are digital records of a book being read. You can download and listen to them on a computer, phone or tablet.

Adobe Digital Editions is software that you download onto a computer that allows you to use the eBooks. You will be prompted to download it when you borrow an eBook. Ensure your Adobe ID is set up if you intend to use multiple devices on your library account.

OverDrive Desktop App is software needed to listen to audiobooks on your computer. You will be prompted to download it when you borrow an audiobook. Download the software for free from the OverDrive website.

Libby is a free app downloaded onto mobile devices from the Google Play or Apple App store. You can find it by searching “Libby” or “OverDrive.” It allows you to download and use eBooks and audiobooks on your mobile devices.

2 About OverDrive

OverDrive is a patron exclusive eResource.

You can borrow up to 10 titles at a time.

There are a limited number of copies available for eBooks and audiobooks so you may have to place a hold. Hold times can be cut down by returning books early.

You don't have to worry about late fees. Once your loan period is over, the eBook or audiobook will automatically return itself.

You will be prompted to use the proper software when you download your borrowed titles.

Not every book published is available on OverDrive in eBook or audiobook format.
