The Know It! resource offers narrated information on animals, people, plants, transportation and weather. You can get extra information by clicking the question marks on the illustration and selecting It's a Fact!

The screenshot shows an interactive educational interface. At the top left, there is a small cartoon bird icon and the title "Amazing Birds". Below the title is a text box containing the following text: "There are hundreds of amazing birds on the grasslands. Giant ostriches run along the ground and tiny, colorful weavers fly from tree to tree. You may even spot a hungry vulture swooping through the sky." To the right of this text is a large illustration of a vulture with its wings spread. Several red circular question marks are placed on the illustration: one on the vulture's head, one on its wing, one on its tail, and one on its feet. A pink text box is overlaid on the vulture's body, containing the text: "A vulture spots a snack from far away with a pair of beady eyes." At the bottom of the interface, there are navigation controls: a left arrow, a play button, and a right arrow. Below these is a red button labeled "It's a Fact!".
